

KINGS BOUNTY

EQUINE PRACTICE

PRE BREEDING PACKAGES

We are pleased to offer several pre breeding packages * for the stud season in order to assess the suitability of your mare for breeding. The purpose of these examinations are to check for any problems that may affect the mares ability to conceive or to carry a full term foal. This prevents many mare owners from the disappointment and expense of trying to breed from a sub fertile mare. Health tests can be carried out as this time depending on your individual mare requirements. Please check requirements of the individual stud or AI centre.

PRE BREEDING EXAM (PACKAGE 1) - £130 +VAT

This examination will usually include:

- A full gynaecological examination
- Examination of vagina and cervix with a speculum
- Ultrasound examination of ovaries and uterus
- CEM (clitoral) swab for contagious equine metritis **

PRE BREEDING EXAM (PACKAGE 2) - £165 + VAT

- A full gynaecological examination
- Examination of vagina and cervix
- Ultrasound evaluation of uterus and ovaries
- CEM swab for contagious equine metritis**
- Blood tests for EVA + EIA

*PACKAGES DO NOT INCLUDE VISIT FEES OR SEDATION IF NEEDED PLEASE CONTACT KINGS BOUNTY EQUINE PRACTICE -01420 520164 IF YOU WISH TO DISCUSS IN MORE DETAIL

** PLEASE NOTE THAT CEM CULTURE CAN TAKE UP TO 7 DAYS TO CULTURE SO MAKE SURE YOU PLAN AHEAD
